ADMINISTRATION DEPT
CITY OF LANGLEY

To
City of Langley
Council Meeting

→ Apr 8) 2019

Re Public Housing - Monday re Bylaw 3098
to amend bylaw for 19920, 19930, 19940,
19950, 19960, 19970 (6 LOTS) to allow 80
units on 6 lots.

1) Parking is getting absurd in the
area: as there is not enough parking
on sites, with the high density, recently
built for residents, cars + their guests,
service trucks + trade. No parking
except street or on other property for
residents or visiting trade people with
small or large trucks, except on street
parked illegally. Where parking is allowed
on streets now - in future this street
parking will be banned to increase
traffic flow. All high density building
in Langley City should be banned until
parking streets, roads, schools, government
service, etc + all services are budgeted for
years to come before any more increase of
population. As well 600+ units are absurd
there should be a minimum of 1000 sq. ft. UNIT
+ 3 parking spaces 2 car + 1 truck minimum
parking, street roads, utilities, schools
police, fire + government costs, etc are

(2) OF 2

Budgeted for yrs to come before any more
increase of population.

Yours truly
Gail Aylen
