Kilimo Model
With the same styling and capacities as the standard Coral Creek model, the Kilimo is the result of a custom design which has become very popular among gardeners and landscapers. This model was designed with ease of use in mind. Features such as hinged lid, built-in supports for opened lids and saw-shaped knobs on the removable fronts instead of standard through bolts provide ergonomic ease of use. This model is available as a single, double or triple unit and the same work layout is standard in all of our models.

Notice the rests
behind each lid.

These sharp corners visible, make water seep in to the finished container.

These photographs to the left and above show the parts for the fella when they are over. Also shown on the hinner, on
