Way too high of a building & way too many units, people,& vehicles for the area . There is already not enough green space or amenities . A lot of dog walkers, no off leash area .Bowling , gone, Bingo gone, no local theatre, no place for music & Art etc.. There is already all new townhouse condos on 56, without people & cars yet. So not a time to add more . We are in a Valley, & any higher building blocks views of the mountains . Totally against this proposal .

I also have noticed , any stream areas running through downtown , needs to be looked at , /fixed up somehow , streams near buildings.

S. Locke downtown resident.
