: Pace of grown in Langley City is slow, making it harder for the current generation to remain living and working in the City. Projects like this one provide a diversity of housing which is much needed for Langley City. More effort needs to be given by Staff to expedite this forms of housing.

: Due to the situation in Iran, many of my relatives - including my parents-in-law, brother-in-law and sister-in-law and cousins - moved to Canada. They are desperately looking for housing, and due to extreme cost of housing on North Shore, Burnaby, and Trinities they are planning to move to Langley. I would consider buying a unit or two to rent to my relatives, and some of the relatives who have PR have the same plan. Without projects like this being fast-tracked, approved and built we cant address our housing crisis. I full-heartedly support this project.
