

EXPLANATORY NOTE

WATERWORKS REGULATION BYLAW, 2004, No. 2550, AMENDMENT No. 27, 2024, No. 3298

The purpose of Bylaw No. 3298 is to increase the water user rate structure in 2025 by increasing the consumption charge by \$0.10/CM. This overall increase is to offset the increase in the GVWD rate reflecting the continued water quality improvement capital projects, increases in City wages and supplies and an increase in reserve transfers to help fund future infrastructure replacements.

The consumption based charge will increase to \$1.89 per cubic meter and the flat fee will remain at \$75.00. Water rates are designed to attain a user pay system by charging customers for their actual use. The average total cost for a Single Family Home in 2025 will be \$698.70 (an increase of \$33.00 or 5% over 2024), and \$434.10 (an increase of \$19.00 or 4.6% over 2024) for a Strata Dwelling.
