

Stop the Construction of a 302-unit, 6-story Housing Building

We live south of the Nicomekl River, a place that holds dear memories for me. With sadness, I foresee potential harm to this beloved locale due to the proposed construction of a 302-unit, 6-story housing building. This large-scale development will surely result in a significant drop in neighboring home values and disrupt the harmony and aesthetic of the neighborhood.

In addition, we cannot ignore the serious lack of infrastructure needed to support the influx of residents that such a project would bring. Infrastructure needs extend beyond transportation and include education as well - our local schools are unprepared for a potential increase in student numbers. The transit system is not equipped to accommodate the additional demand such a large scale project is likely to cause.

Finally, it is necessary to draw attention to the questionable dealings surrounding this initiative. The local Church, which is leading this venture, appears to be marred in conflicts of interest. The land sale is contingent on the Church obtaining building permits, a transaction that raises eyebrows given the intimate involvement of the city in the permit provision process.

We urgently request a halt to the planning and construction of this building. We urge the local government to reconsider the impact on home values in the community, the strain on existing infrastructure, and the possible ethical questions regarding the Church's involvement. Please sign this petition so that the city reconsiders its plans and comes up with more appropriate and less disruptive housing plans for those in need.
