**Subject:** Langley Holiday Ice Rink

Hi Mayor Pachal,

My name is Brian Joy with "Ice-Canada" Rinks in Vancouver.

I would like to introduce myself and see if you and the city council would be interested in learning more about us and how we can build an outside temporary real ice-skating rink for you in the City Centre, parks and the downtown area.

If you would like to discuss an ice rink activation around the Christmas holidays, we would be happy to discuss with you on some options and walk you through the process. Having a rink during the season is a fantastic way to unite a community, uplift people, and provide lasting memories and revenue.

Please see the attached brochure for additional information, including a video link below to review for reference.
